MANAGEMENT RIGHTS

“

Jessica of SIRE Management Rights is legendary in the MLR (management rights) sales space - excellent follow up - right on top of things, sensible and commercial, everyone should deal with her. The SIRE Team picked up with what had to be done and got on with it for which she is known. I benefited from SIRE Management Rights's professionalism, working the commercial terms, timely. I would recommend SIRE Management Rights to everyone in the management rights industry - buyers and sellers.

“

Jessica and Richard visited my office a few years back. I have seen lots of great management rights for sale from The SIRE Team consistently over the years. When we considered selling our management rights, I called Jessica to help me to get my documentation organized and guide us through the sale process. Jessica and the SIRE Team are very efficient and always love to help, they gave me lots of useful information and advice. Jessica and The SIRE Team helped us find qualified buyers and submitted several good offers to us in two weeks. The whole process was easy and simple and more importantly we got the price we wanted. We really appreciate Jessica and The SIRE Team's excellent work. I will highly recommend The SIRE Team to my property manager friends for both buying and selling.

“

We decided to list with the SIRE Team because we felt that their knowledge and contacts in the industry are very good. We had no concerns and we trusted The SIRE Team from the start. We were happy to obtain a very fast offer within a few hours. We would recommend the SIRE Team's services to anyone wanting to sell and will ourselves use it again when we are ready to sell another one of our management rights in future.

TONY LILLEY

“

I knew about SIRE Management Rights from one of my friends who also owns a management rights business. My wife and I are running several management rights and would like to consolidate our businesses. We found it a bit hard to run several sites. Hence, we decided to sell our Sherwood businesses. While we have experiences with other management selling agents, we found SIRE has more innovative marketing initiatives leading to more viewings by potential buyers. We have no reservations in recommending SIRE to anyone who would like to sell their management rights businesses.
